

MOHAMED KHALED OURIEMMI

Computer Science Student | Software & Web Developer

Paris, France | ouriemmikhaled@gmail.com | LinkedIn | GitHub | Portfolio

PROFILE

Computer Science student at **Sorbonne Université** with hands-on experience in **full-stack web development**, **Python applications**, and **open-source software**. Interested in **software engineering**, **product development**, and building practical tools with strong **user experience**.

EDUCATION

Sorbonne Université | Paris, France

B.Sc. in Computer Science | Expected **June 2028**

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C/C++, HTML5, CSS3, Lua, Pawn

Frameworks/Libraries: Flask, React, Node.js, PyQt5, Tkinter, Tailwind CSS

Tools/Technologies: Git/GitHub, Docker, Linux, MySQL, MongoDB, REST APIs, JSON

EXPERIENCE

Algorithmics, Robotics & Applied Mathematics Instructor | *Melya Conseils et Formations (MelyaKids)*

Greater Paris Metropolitan Region, France | Jul 2026 - Present | Part-time, On-site

- Teach **3 STEM subjects**: algorithmics, robotics, and applied mathematics to **children and teenagers** through structured, hands-on lessons.
- Adapt lesson delivery across **2 age groups** to strengthen **communication**, **pedagogy**, and **problem-solving** skills.

Full-Stack Web Developer | *VH-News LFIVH*

Houmt Souk, Médenine, Tunisia | Mar 2024 - May 2025 | Part-time, Hybrid

- Founded and built the school's **official news platform** and a lightweight **CMS** using HTML, CSS, and JavaScript, supporting **1,200 monthly users**.
- Led collaboration with **10 student editors** and enabled publication of **50+ articles per month**.

Open Source Developer | *Self-Employed*

Remote | May 2023 - Present

- Built and published **10+ open-source projects** across web, desktop, automation, and game-server tooling using Python, JavaScript, Lua, and Pawn.
- Developed practical solutions focused on **software engineering**, **tooling**, and **interactive systems**; showcased through public GitHub repositories and live demos.

SELECTED PROJECTS

QuizLAN 2.0 | *Python, Flask, JavaScript*. Built an **offline-first LAN quiz platform** with teacher/student portals, **PIN-based sessions**, **custom timers**, and live state updates.

Djerba Language | *Python, Interpreter Design*. Designed a small **programming language and interpreter** with custom syntax and runtime behavior.

OlympiadaExplorer | *JavaScript, HTML/CSS, MySQL*. Developed a Paris 2024 event explorer with **multi-criteria filtering**, search, pagination, and localStorage; indexed **1,200+ events** and reached **1,000+ users**.

Class Scheduler | *JavaScript, HTML/CSS*. Created a responsive **drag-and-drop timetable builder** with **real-time conflict detection**.

Time Zone Meeting Planner | *JavaScript, Intl API*. Developed a dependency-free scheduling tool that identifies **overlapping working hours** across cities and shares configurations by URL.

LANGUAGES

Arabic (Native) | **French** (Native) | **English** (Full Professional) | **German** (Limited Working)
